Statement of Faith

Final English Version

Preface

We, the Church of Era Truth, take the historical records of the Bible as our foundation. While respecting tradition, we are committed to integrating faith with modern civilization, science, reason, and human conscience.

We believe that the ultimate purpose of faith is not only to pursue love, justice, respect, and wisdom, but through these practices to realize human well-being, and to create a true heaven in our present life.

1. About God

We believe that the concept of God originated in the agrarian age as humanity's explanation and quest for the mysteries of nature and life. In modern civilization, God may be understood as a symbol of awe, truth-seeking, and goodness, guiding us toward harmony, justice, and love.

2. About Jesus Christ

We believe that Jesus Christ was a real historical figure. Humanity gathered its understanding and hope of God in his life and teachings, making him the embodiment of God on earth. His love, sacrifice, and justice continue to inspire and guide us today.

3. About the Holy Spirit

We believe that the Holy Spirit is not an external mystical force, but the inner dialogue, conscience, and awareness within each person. It is the voice that guides us toward truth, goodness, and love in our decisions and reflections.

4. About the Bible

We regard the Bible as a historical record and a treasury of wisdom. Its value lies not in miracles, but in preserving humanity's experiences of love, justice, repentance, forgiveness, and faith. Through these records, humanity can reflect on its behavior and pass down the light of truth.

5. About Modern Civilization and Heaven

We believe that humanity has entered an age where life can be improved through wisdom, science, and social progress. The idea of heaven should not be limited to the afterlife but created here and now through human action.

Love, justice, respect, and wisdom are not ends in themselves but paths leading to human well-being. Our mission is to practice these values in this life, so that both individuals and communities may attain fulfillment, and together create a true heaven in reality.

Mission

1. To proclaim a faith centered on love, justice, respect, wisdom, and well-being.
2. To promote education, health, environmental care, and social justice in communities.
3. To guide individuals in establishing meaningful spiritual practice with real-life impact.
4. To create inclusive spaces for worship, dialogue, and mutual learning.

Core Values

Well-being: The ultimate purpose of faith and action.

Love: Love as the foremost ethical principle.

Justice: The promotion of fairness and the public good.

Respect: Treating every person as equal and recognizing each person's uniqueness and value.

Wisdom: Respecting truth and reason, with courage to think and learn.

Practice: Putting faith into concrete improvements in life and society.
